

F.A.Q.

Pedagogical Project Development

How long will it take for the works of adaptation of Petranova's outdoor spaces?

It will take about three months.

We expect them to start in May 2024 and will end at the beginning of August 2024.

The work to adapt Petranova's outdoor spaces will disrupt normal school activity?

Absolutely not. Work will be organized so that it will not affect areas used by pupils. If necessary, work will be done in hours when there is no teaching activity.

Will Petranova's Nursery School children be deprived of their play space?

The nursery school children's play space remains as it currently is today. In addition, they will also be able to use other play areas in the school as all spaces serve everyone.

Will the teachers change?

No, the teachers will be the same.

Will tutoring remain homogeneous?

Yes, it is a feature of our educational project that remains and that we protect.

What do the "frequent and stable moments of confrontation between males and females" consist of?

In each level there are lessons and activities that boys and girls will do together.

For the Primary School level.

Classes I, II, III, IV and V-we have planned the following mixed activities:

- o 1 weekly STEAM lesson
- o 1 weekly lesson Religion
- 1 weekly lesson Music (Choir)
- 1 weekly Public Speaking class
- 1 hour per day of Lunch and Recess
- or periodically n°1 lesson in civic education

For the Secondary School level.

Classes I, II, III - we have planned the following mixed activities:

- o 1 weekly STEAM lesson.
- o 1 weekly lesson Religion
- o 1 weekly lecture Theatre
- o 1 hour per day of Lunch and Recess
- o periodically no.1 lesson in Civic Education
- o periodically no.1 lesson in Art and Technology

How will the exits from school be arranged in May during the adaptation works?

Petranova has 4 exits toward the road, not all of which are used today. The most suitable exit will be chosen.

Will younger children be able to go to the lunior?

Yes, for example, on occasion of the summer camps, which will continue to be held there as well. We have planned 4 special days for primary school students who will spend the whole day at Lunior.

The older kids, will they be able to go to Petranova?

We have also planned 4 special days for secondary students who will spend the entire day at Petranova.

Is it correct to say that CEFA "is adapting to the times"?

Yes, it is correct because our educational offer is dynamic over time, but it is not correct if it is understood that we are willing to give up the values we believe in. Single sex education still remains one of our main identifying aspects.

Do the experts' contributions cover only the relational aspect or also the educational aspect?

It is clear that relational components cannot be separated from educational and therefore didactic components. Experts, however, while not specifically going into educational technicalities, have stated that the educational dimension also makes use of the relational one.

Does the project provide extracurricular activities?

Absolutely.

Isn't it premature to start with this project in September 2024?

We identified an educational need and, except for important elements not seriously taken into consideration, it is the duty of those who manage to work to meet these needs. We have studied the different areas concerning the project in good time; today all the conditions are in place for it to proceed.

In the project, is there room for possible doubling of sections of all classes?

Yes, in both schools.
